

An aerial architectural rendering of the Qatar Airways Headquarters Complex. The central feature is a large, circular building with a multi-tiered, terraced roof and a central courtyard. To the left of the circular building is a large, rectangular building with a flat roof. To the right is another rectangular building, slightly smaller. The complex is surrounded by landscaped grounds with palm trees and a road with a median. In the background, there are more buildings and a road. The sky is clear and blue.

THE SITE

Headquarters Complex Site 100,000m²

Doha

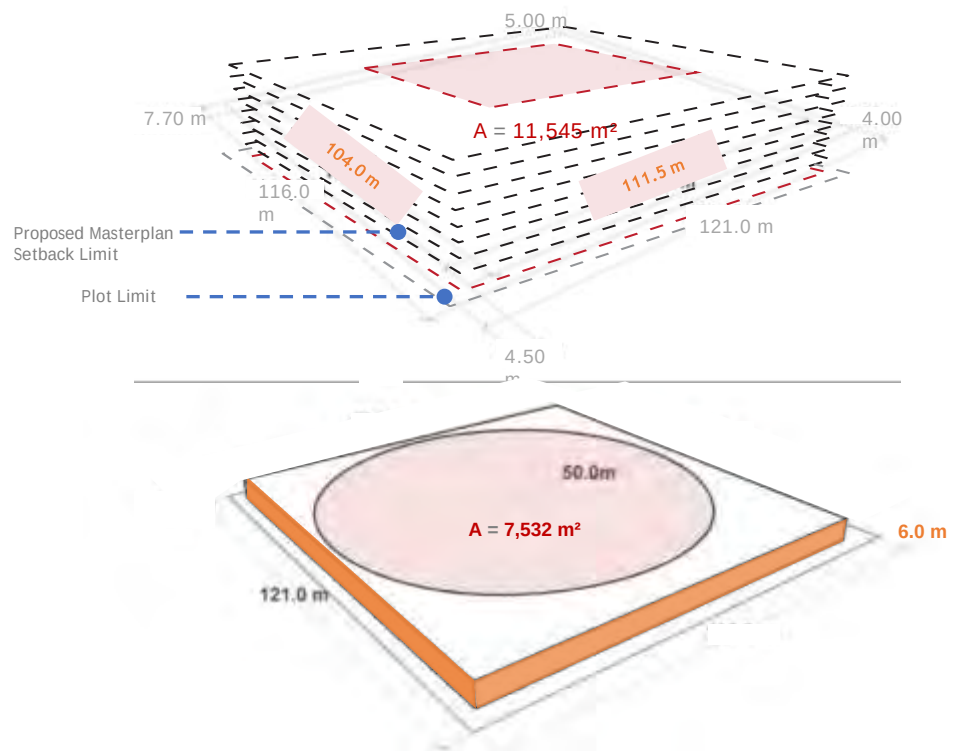

Proposed underground basement (71,500 m²) to include Plot 01 & Plot 04

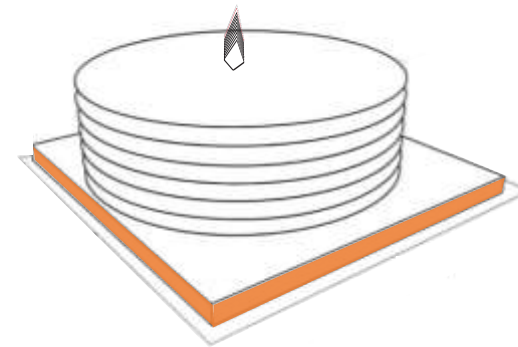

OPTION 4
THE CIRCLE

TYPICAL FLOOR @ 4.5 m:

[GF + 6]:

34 m + 3m (TOB)
(37m Max Height)

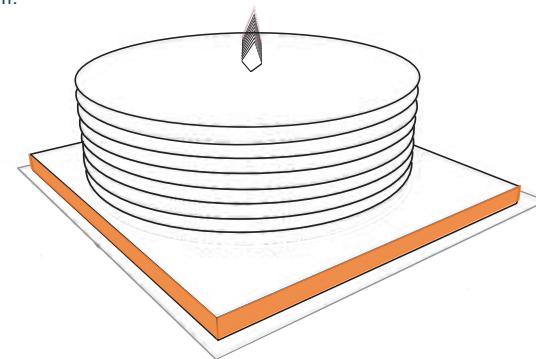

$$A = 11,545 \text{ m}^2 + [7,532 \text{ m}^2 \times 6] \text{ m}^2$$

$$\underline{A = 56,740 \text{ m}^2}$$

TYPICAL FLOOR @ 4.0 m:

[GF + 7]:

34 m + 3m (TOB)
(37m Max Height)

$$A = 11,545 \text{ m}^2 + [7,532 \text{ m}^2 \times 7] \text{ m}^2$$

$$\underline{A = 64,270 \text{ m}^2}$$

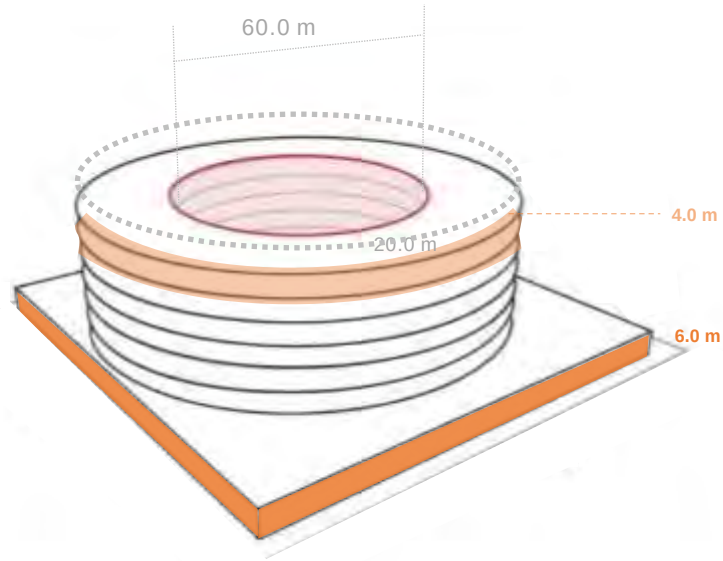

TYPICAL FLOOR @ 4.0 m:
[GF + 7]

@ 20m depth:

(37m Max Height)

(TOB) 3.0 m

34.0 m

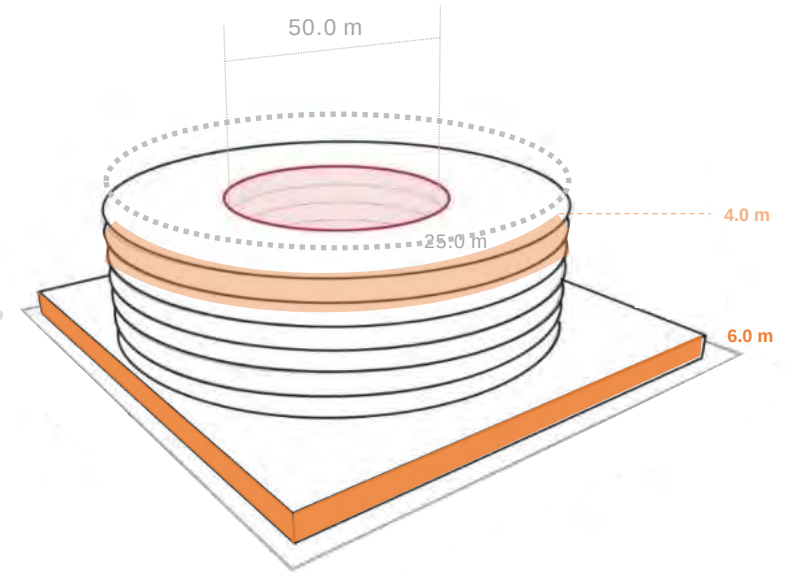

$$A = 11,545 \text{ m}^2 + [4,890 \text{ m}^2 \times 7] = \underline{\underline{45,775 \text{ m}^2}}$$

@ 25m depth:

(37m Max Height)

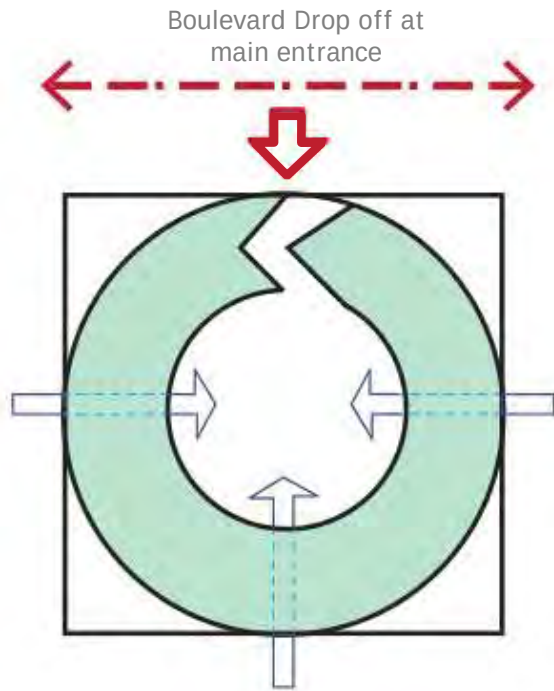

(TOB) 3.0 m

34.0 m

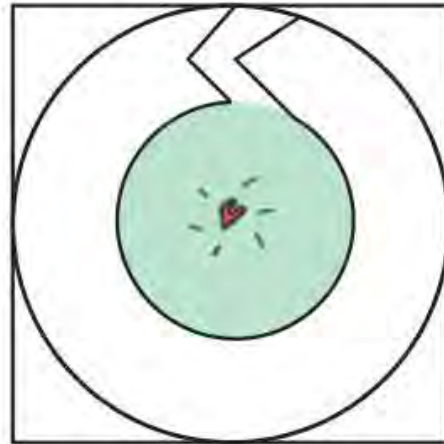

$$A = 11,545 \text{ m}^2 + [5,700 \text{ m}^2 \times 7] = \underline{\underline{51,445 \text{ m}^2}}$$

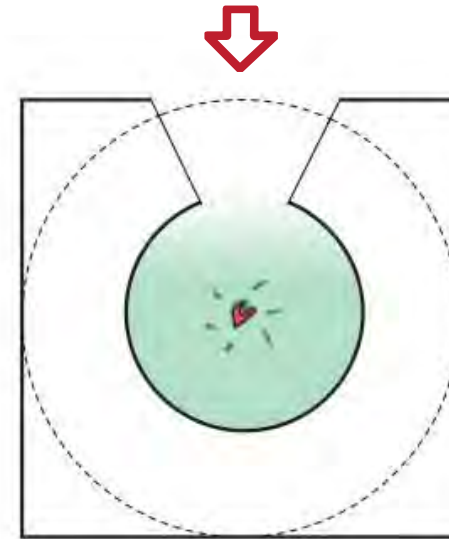

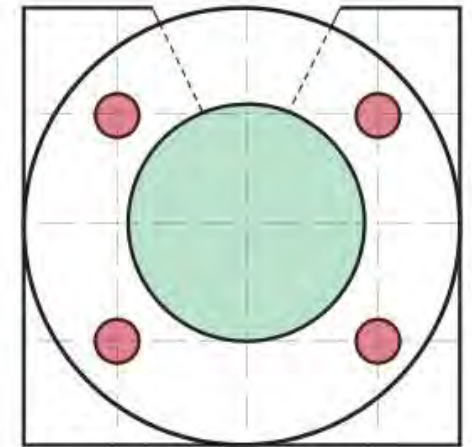

Circular floor plate creates a central atrium. Atrium provides thermal stack to naturally cool office floor plates.

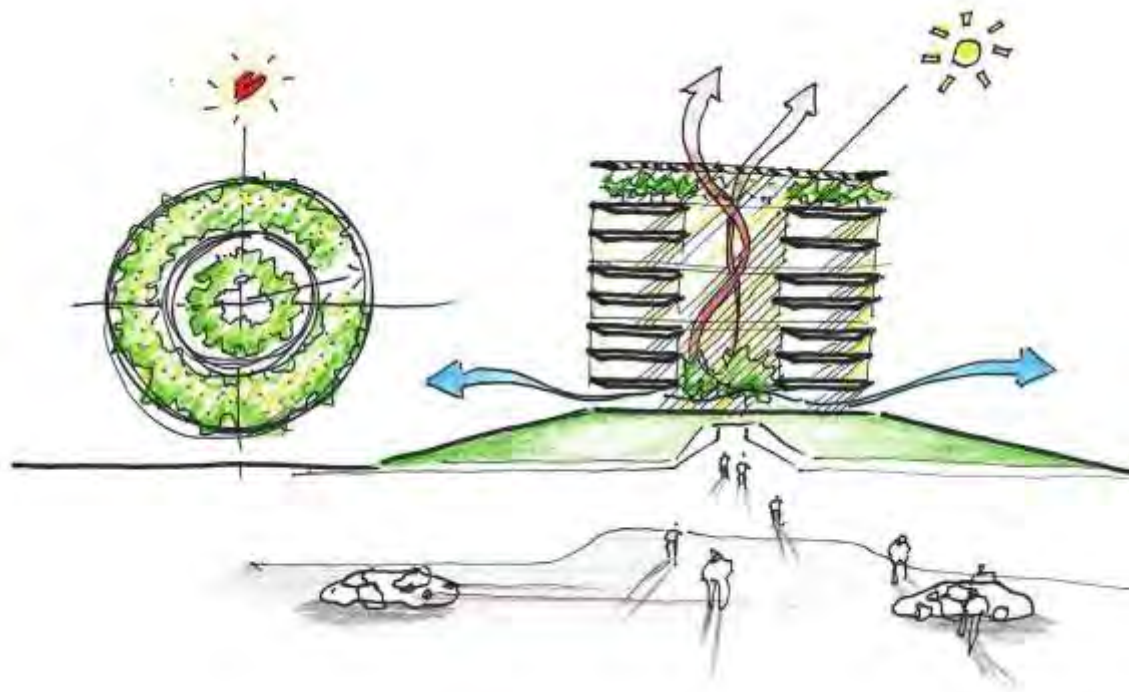

Landscaped Atrium provides flexible central focus for staff.

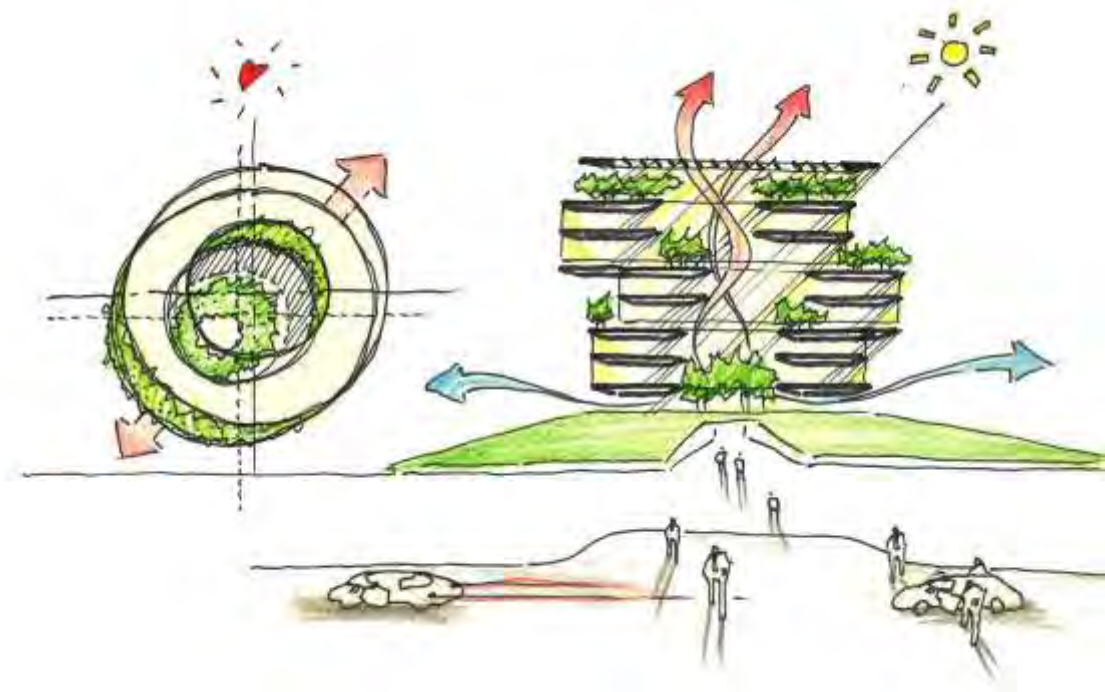

One main entrance, one central space, one HQ building.

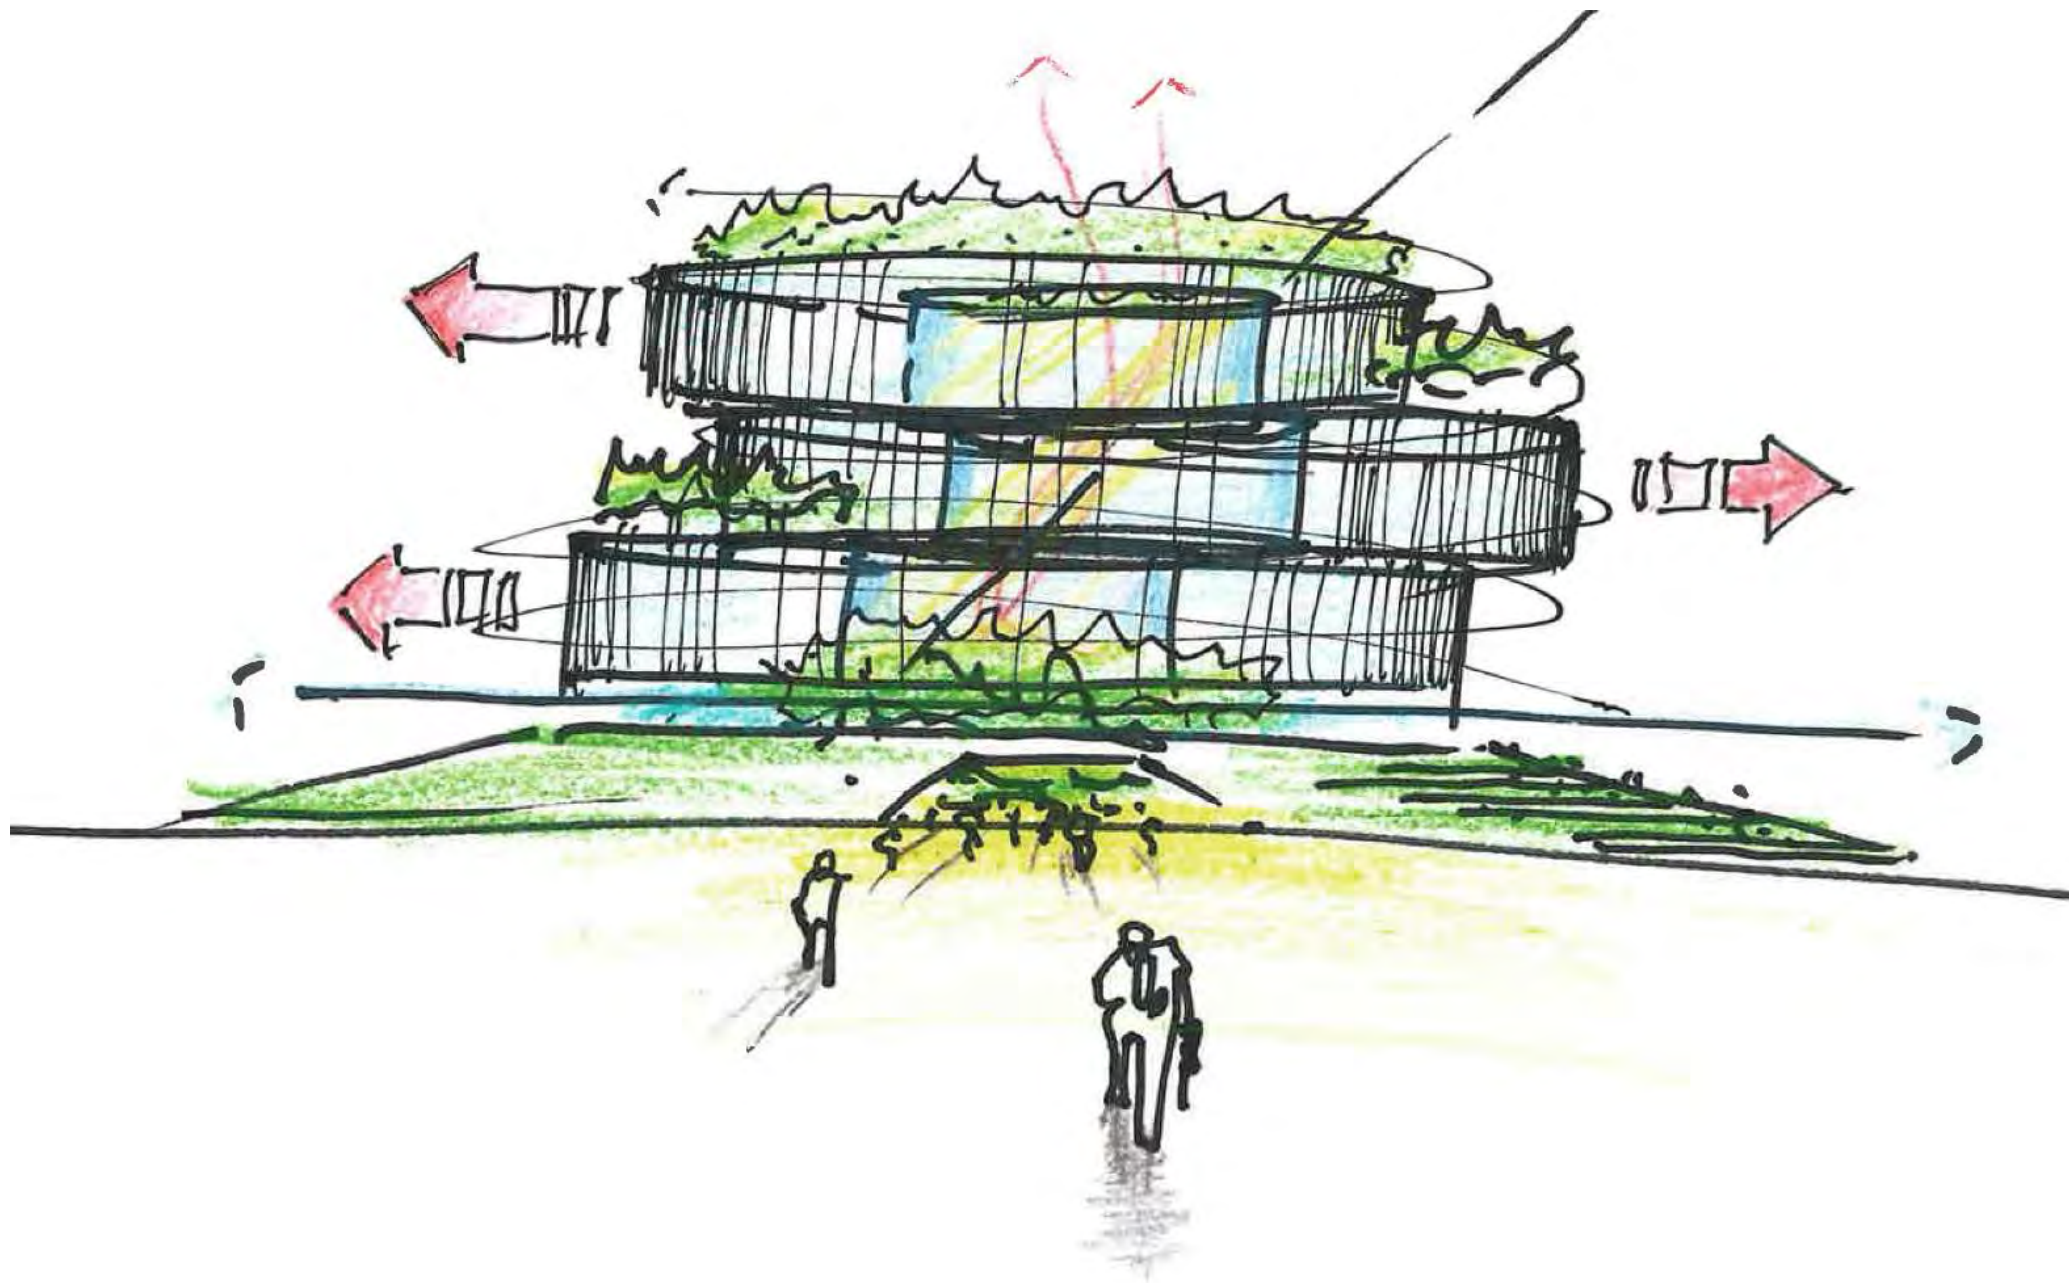

Four Cores, Four Departments, One HQ Building.

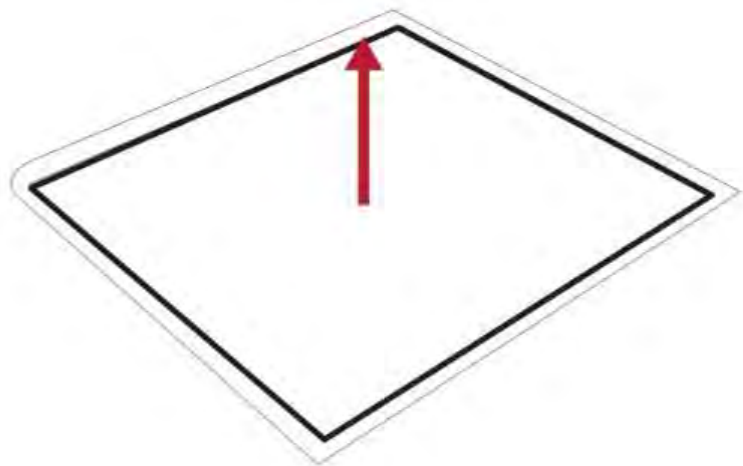

Floor Plates Stacked.

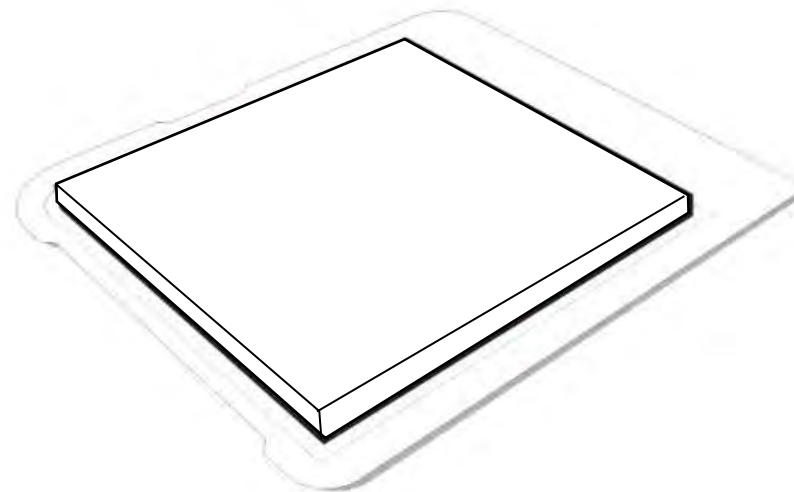

Floor Plates shifted.
Shifted Floor plates naturally create external
terraces and increase solar shading.

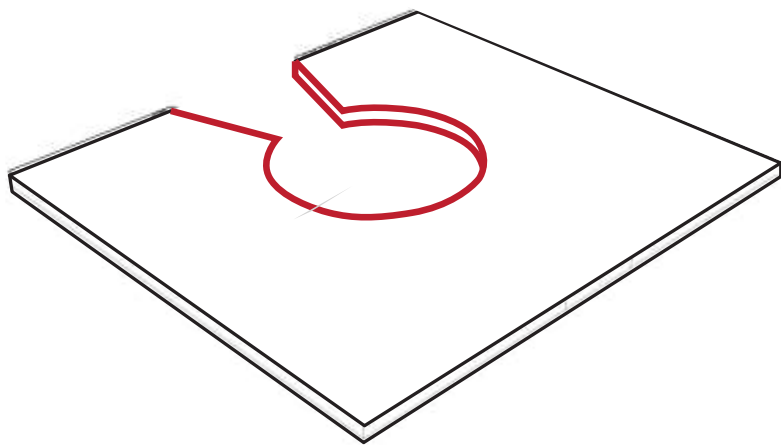

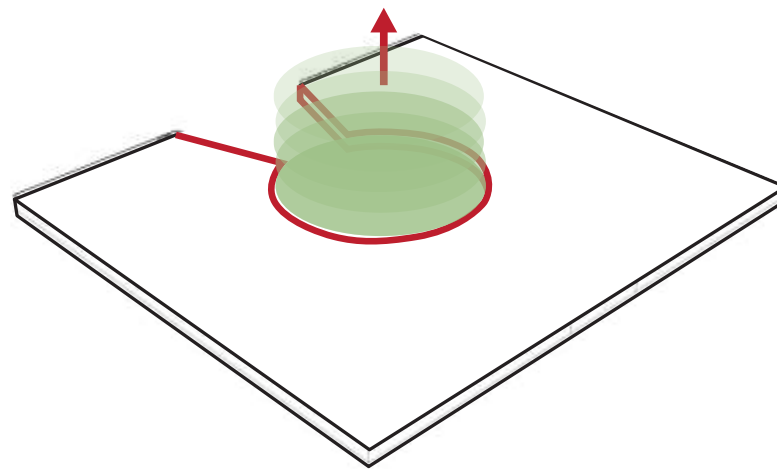

Maximum Build Plot.

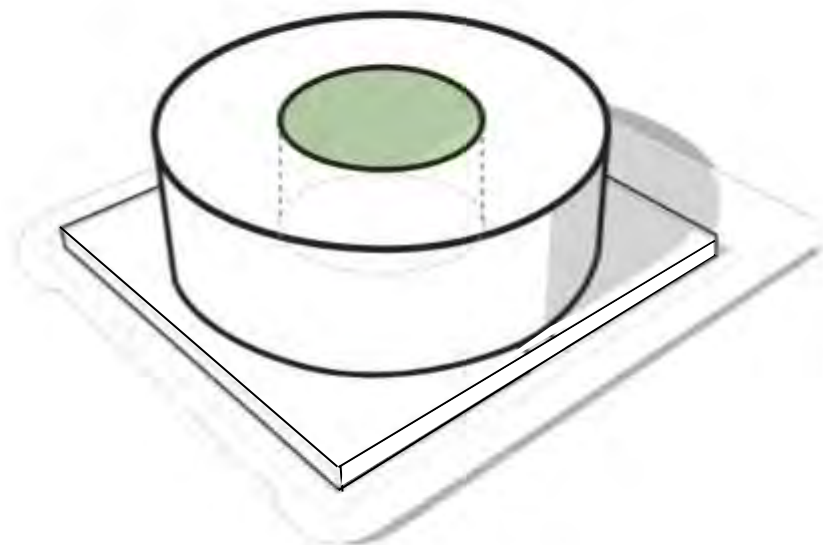

Maximum Build plot Podium.

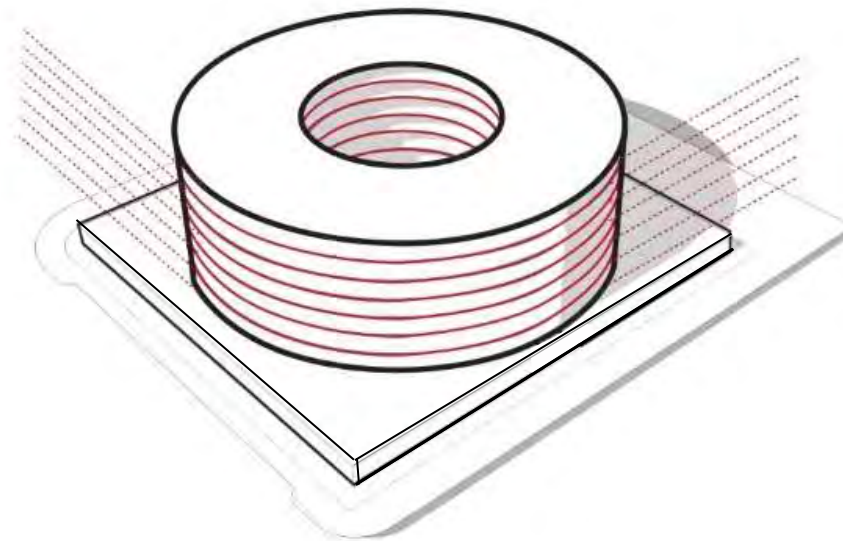

A circular space is subtracted from the podium to create the central atrium space along with the entrance.

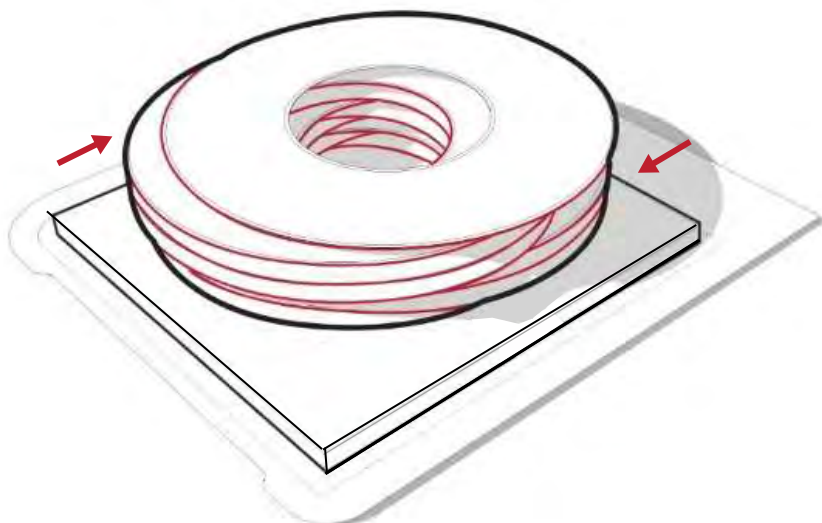

The central heart is extruded upwards to form the atrium

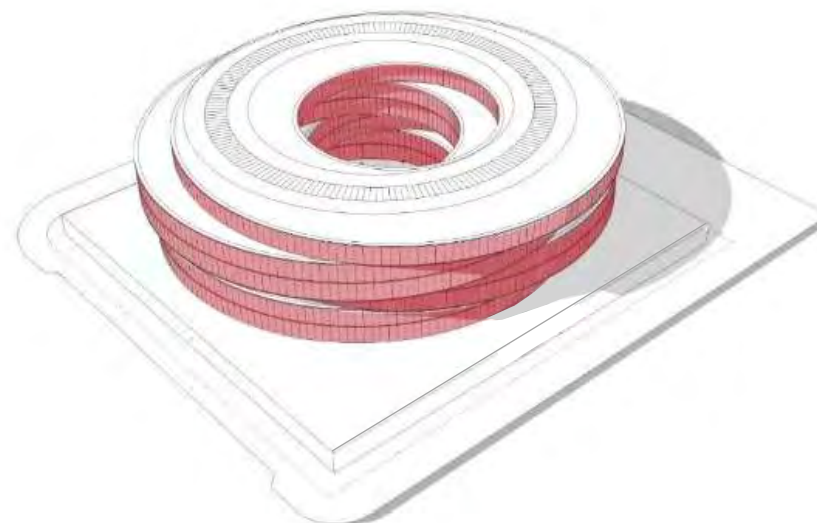

Office space volume is wrapped around the central atrium

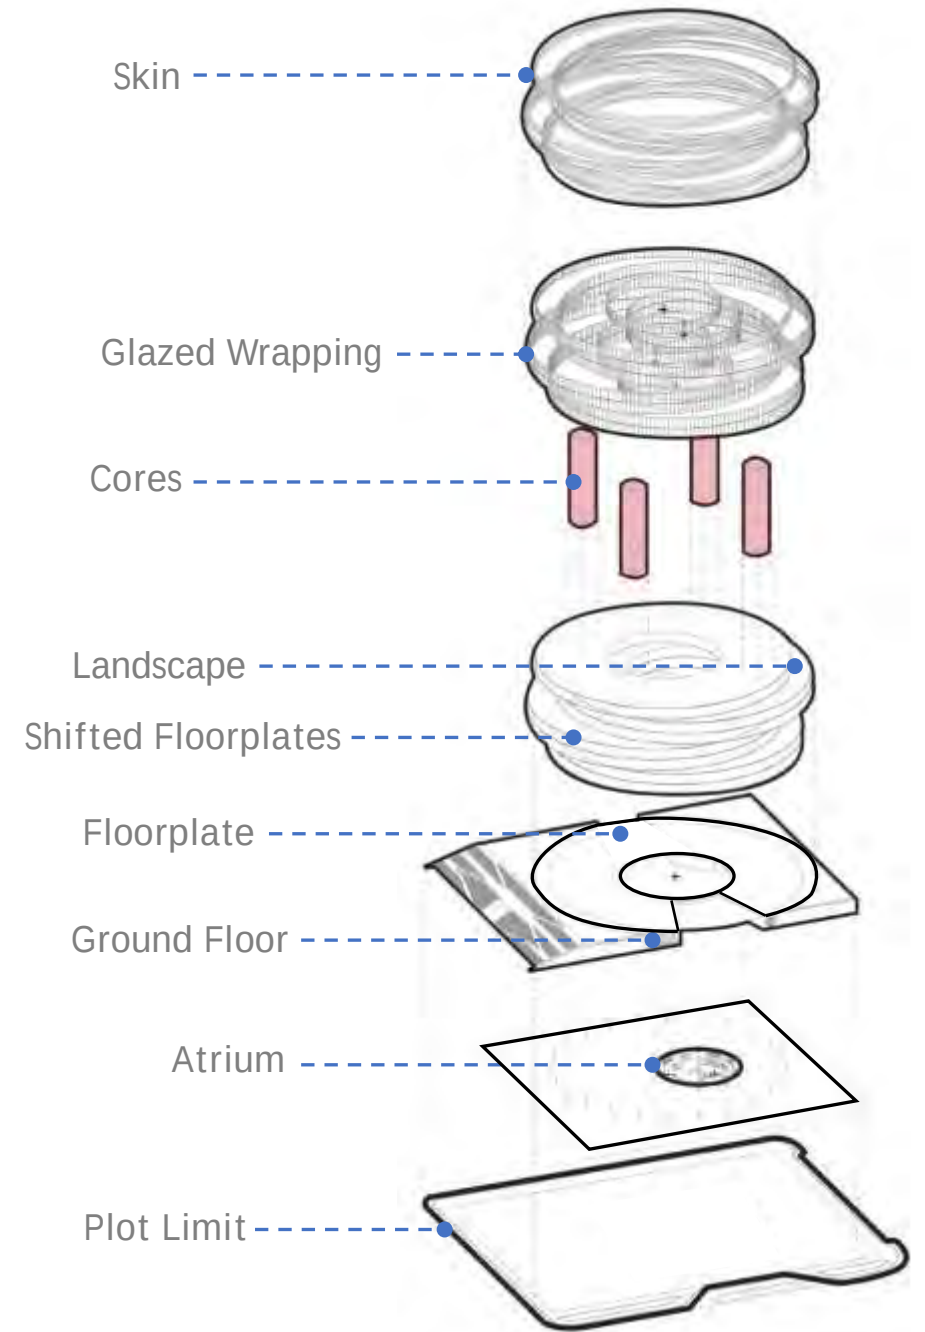

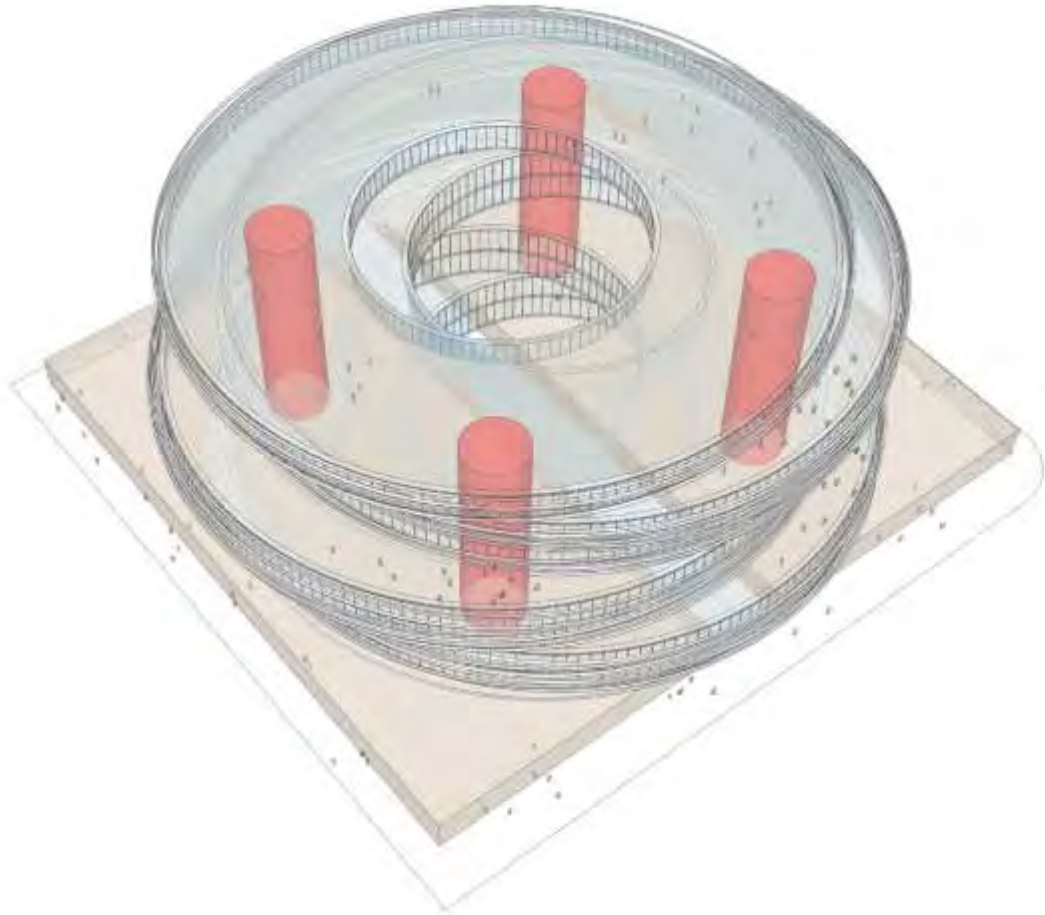

Volume divided to floor plates

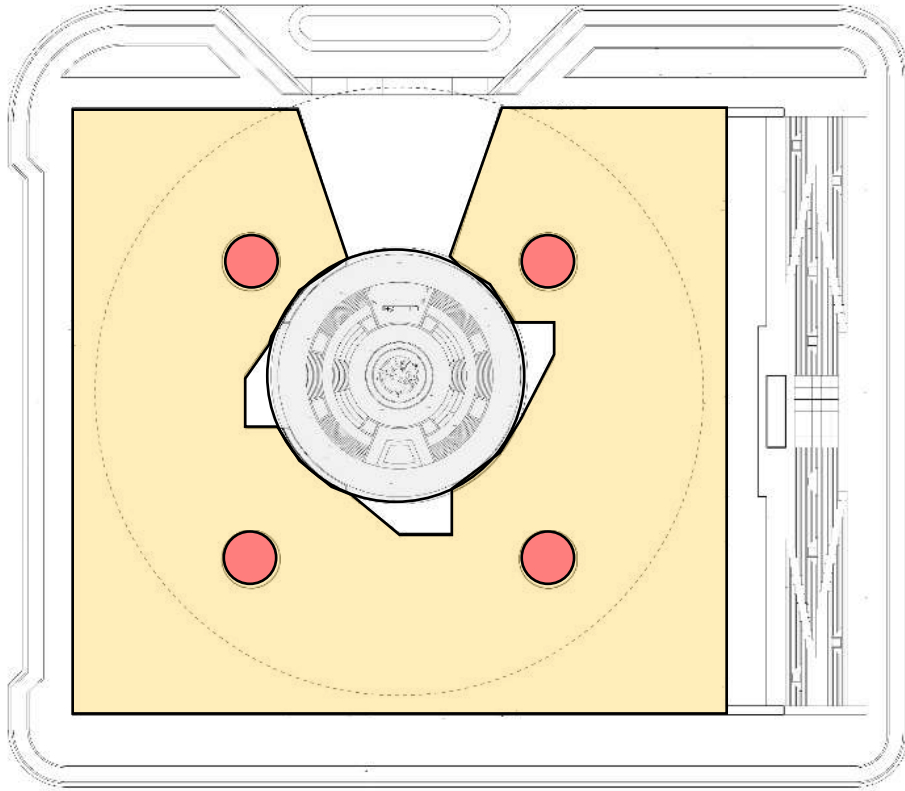

Floor plate layers shifted in different directions to create terraces towards the outer skin and the inner atrium shading the floors below

Glazed skin wrapped around layers creating an iconic form.

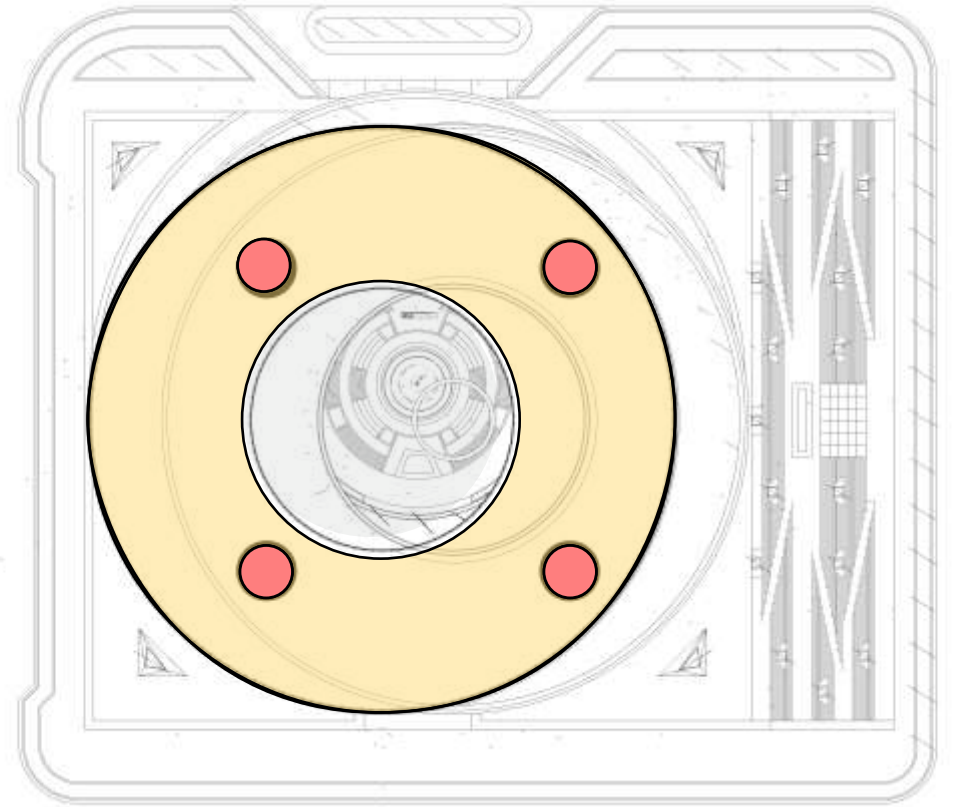

GROUND FLOOR PLAN
